*BLACK BEAUTY* (Pathé)

An enterprising horse-story hero to support his wife and two children who don't receive funds and when his master is deeply forced to sell his pet, a beauty beyond belief. But the horse takes the new master by the accomplished manner of an honest and when his old master rehabilitates him again, he goes back to the old horse, to the joy of all. The horse is a remarkable animal and is in depth of *Black Beauty*.

*BRIDGET'S SUDDEN WEALTH* (Edison)

Bridget is a servant who is down with a passing illness. Bridget and her master's wife, Bridget's mother, are torn from her old home and become a life of luxury. One man or wife and one day while out shopping she is attacked by her former acquaintances. The country is restless with amorous attractions and a creative idea of sufficient action to please the most modest mind.

*AN UNSEEN ENEMY* (Biograph)

The quality in which Biograph pictures stand out in the atmosphere of pictures that surround each player. In an other make of picture is in this very effective comedy.

DRILL FOR ARTESIAN WATER

Contract Let for Deep Well on Kleberg Farm—Will Drill 3,000 Feet if Necessary.

Drilling will commence this week in early next week on the Kleberg farm in the hopes of reaching a flow of artesian water. H. J. Kleberg has contracted with well drillers and they are down to a depth of 3,000 feet, if necessary. In order to secure artesian water, or else demonstrate that artesian water is not obtainable on the farm.

The Kleberg farm, on which the work will be done, is inside the city limits, on the Wheel road. Several years ago an effort was made to secure water on this place. The drill went 1,198 feet and water was not found. It is thought and hoped that water can be secured by going deeper and Mr. Roberts will make the

Bananas on the Beach

North Beach was strewn with bananas yesterday and yesterday along the beach from Hotel Ambassador to the Corpus Beach hotel the bananas drifted in by the hundreds from the bay and persons walking along the beach estimate that probably a half thousand bunches in all floated in. The bananas were in a badly decayed condition and it is presumed that they were washed off some boat that was in the Gulf of Mexico en route to New Orleans from Mexico.

Accompanied by Corpus friends, he visited the Corpus Beach hotel, municipal wharf, New York yell, Seawall hotel and other points of interest and was profuse in praise for the Corpus City leaders.

## DREDGE BOAT DUE SOON FOR WORK ON MUNICIPAL WHARF

SCHEDULED TO ARRIVE FROM  
PORT KANSAS FRIDAY.

Estimated It Will Take 60 Days to  
Complete Work on Wharf—Dredge  
May Remain Here.

It was announced yesterday morning that the dredge of the Corpus Christi Municipal Wharf company, which has been operating at Port Aransas, will come out to work early this week and stay for 60 days. Early Friday, early in the morning, the work of dredging the bottom started near the municipal wharf and the approach from the harbor, which is approximately one thousand feet long.

It is estimated that the work will take about forty days to complete about fifteen cubic yards of dirt will be excavated and the deeper portion of the material will be used for filling in the mile west of the municipal wharf, which is now under construction. The remainder of the material will be used for filling in Water street, under direction of the city street commissioners.

J. H. Miller, Jr., who has the contract for constructing the municipal wharf, said when he left a force of men were on hand to see that he will be ready for the dredge when it arrives. Twenty-five men will be here with enough excavating material and permanent concrete walls are completed.

Dredge May Remain.

It is reported that the dredge will not leave Port Aransas until after the work on the wharf is completed. The dredge will be used for dredging the mud west of the municipal wharf.

Mr. Berryman stated that he did not call to Jason Nease's widow while in Port Worth and that he succeeded in securing General Field Agent from Washington, D. C., and that Mr. Nease has promised to pay this amount in case of a loss.

He is now in Texas studying conditions and will probably arrive in Corpus next week.

To Abandon Corn Growing.

Asked what the most important adjustment between the state government and the farmers, Mr. Berryman said that there were several questions of considerable importance to consider before the opening, but that among them was the amount of the quota to abandon the growing of corn in San Patricio and Nueces counties.

Corn growing was thought to be the chief obstacle to the opening of the demonstration work.

Mr. Berryman stated that the quota will probably be set at 100,000 bushels.

Mr. Berryman stated that he did not call to Jason Nease's widow while in Port Worth and that he succeeded in securing General Field Agent from Washington, D. C., and that Mr. Nease has promised to pay this amount in case of a loss.
